

Quintanilla, Lord Zaro Fiber A.  
BS IT 3 – C  
WebDev LabAct 2

Welcome guest Modal:

This would be the first thing that the guest user would see once visited our page.

Routes:

# RoQ Collective Portfolio

We are a undergrad student in the IT F

[Home](#) [Education & Experience](#) [Projects & Skills](#) [About](#) [Contact Us](#)

in

Q

G

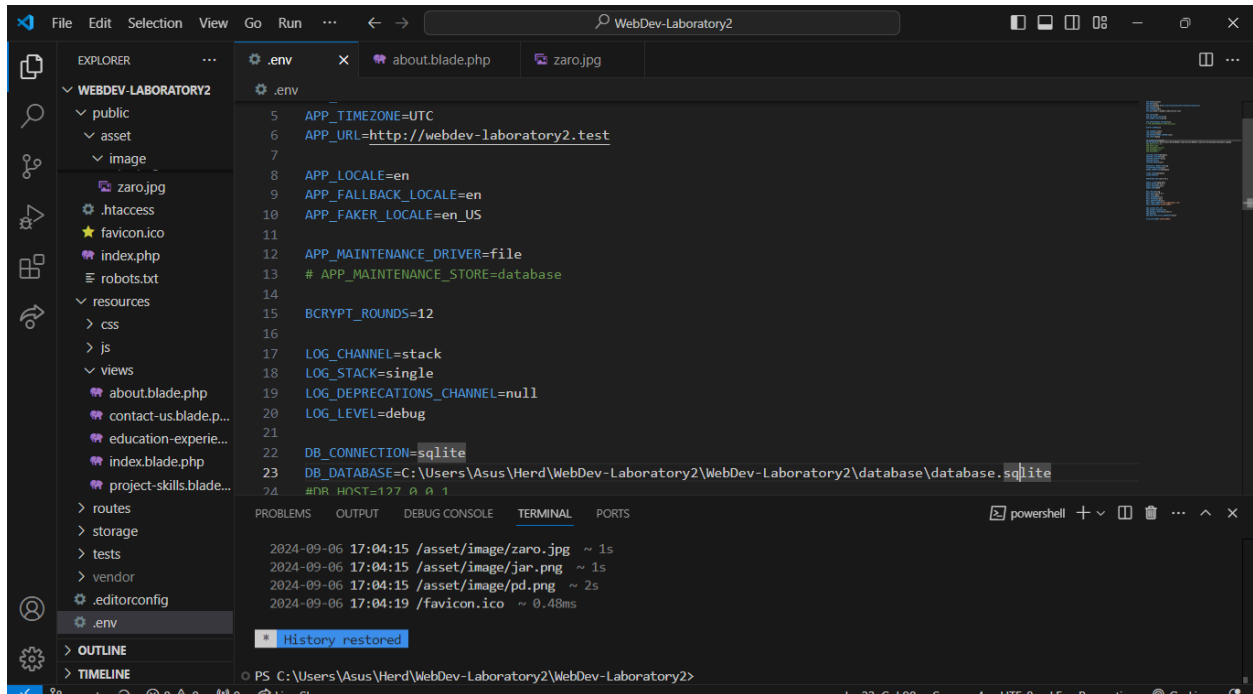

The guest user would see this after clicking the start exploring button and then one hovered in the other pages it would highlight and the user would be redirected to the hovered page. For example on this one the user would be redirected to the about page.

The use Named Routing:

```
="{{ request()->is('/') ? 'active' : '' }}"><a href="{{ route('homepage') }}"> <span>Home</span></a>
="{{ request()->is('pages/education-experience') ? 'active' : '' }}"><a href="{{ route('education-e
="{{ request()->is('pages/project-skills') ? 'active' : '' }}"><a href="{{ route('project-skills')
="{{ request()->is('pages/about') ? 'active' : '' }}"><a href="{{ route('about') }}"><span>About</s
="{{ request()->is('pages/contact-us') ? 'active' : '' }}"><a href="{{ route('contact-us') }}"><spa
```

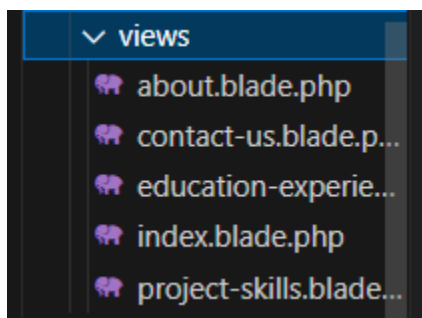

- Navigational routing using named routing

.env file:

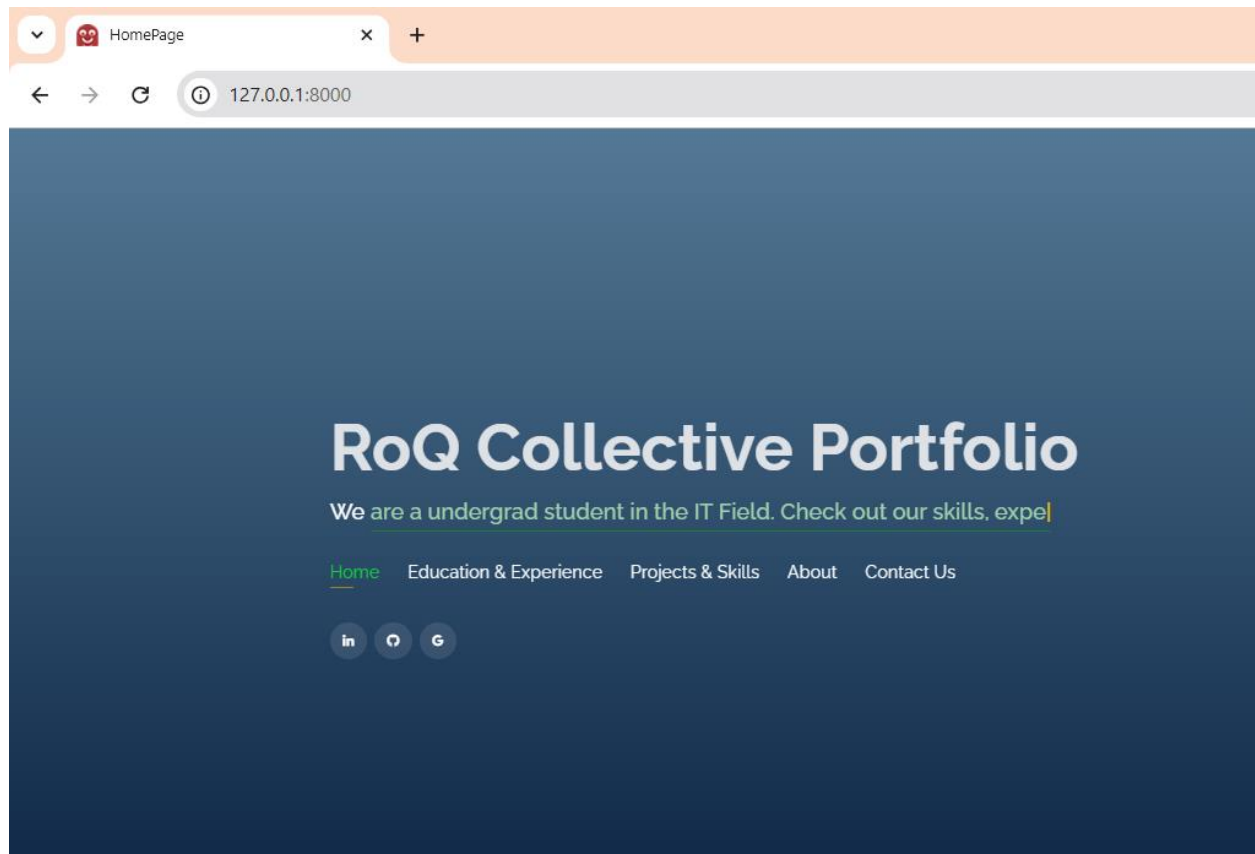

- DB connection with the use of sqlite
